

Smart Vending Machines

The **UMAC 3D** combines a refrigerated section and a freezer section within a single machine, while integrating the same autonomous dispensing technology that defines the strength of UMAC solutions.

It allows both fresh snacks and beverages as well as frozen ready-made meals to be offered in a compact, fully automated format.

Thanks to its intelligent item detection system and automatic billing, the UMAC 3D delivers a seamless self-service experience, with no checkout and no human intervention.

A versatile, turnkey solution designed to meet all food service needs, 24/7.

**Machine adapted to
your products**

**Increase your sales at
low cost**

Works 24/7

**Solution for rising
commercial ft² costs**

**Solution for labor
shortages**

**Solution for rising
wages**

UMAC 3D
